ARMY TALK

In addition to being Armistice Day, November 11 also marks the anniversary of your Army's Special Services Division. Many of the comforts and practicalities of the entertainment of soldiers is of paramount importance to Special Services. Information and education is also a part of this Army-wide activity. There is a warm spot for Special Services in the hearts of all American citizens in Hancock County, as well as those who have elected to remain in uniform.

All dependents of servicemen in Hancock County will be interested to learn that the Office of Dependency Benefits is being moved from Newark, N. J., to St. Louis, Mo., where it will be located with other Finance Department activities at 4300 Goodfellow Blvd. The transfer began on October 20 and is being carried on in stages with the final move to be completed about February 1, 1947. The Government Insurance Administration Division will be addressed at St. Louis effective October 25.

Officers, enlisted men and civilian employees, of Seventh Army Headquarters, Atlanta, are all cooperating with the Community Chest and its Red Feather agencies. The total subscription is expected to be quite large with advance donations exceeding quotas.

If you want to send your soldier overseas the Sea Coast Echo, just call the Echo Office and enter his subscription, providing he has a permanent APO number. A request from your GI for the paper or any other second-class mailing matter, such as books or other publications is no longer necessary. Major George F. Heinz, Postal Officer of the Seventh Army, has announced. Major Heinz pointed out, however, that second-class mailing matter under the new ruling may be sent to GIs with permanent APO numbers containing no more than four digits. A temporary APO number contains five digits. If your soldier does not already receive the Echo, include a subscription among his Christmas gifts right away!

Alleviating meat shortages in Georgia and elsewhere, substitutions in the Army's master menu by the Office of the Quartermaster General, deleting 13 issues of meat per month, have reduced the meat requirements for the Armed Forces by 12 percent. This is being done, not only to assist civilian consumption during the present shortage but also without reducing the 3600-Calorie minimum prescribed by the Office of the Surgeon General. Citizens of Bay St. Louis will feel this latest action by the War Department, although even with the reduction the Quartermaster Department is finding it tough going to keep up its supply of meat and has resorted to day-to-day buying as the commodity is located.

WAVELAND ELECTION CONTESTS DECIDED

Honorable Homer Currie, Judge of the Nineteenth Judicial District of Mississippi, who presided over the Special Court set up under the Corrupt Practices Act, under appointment of the Chief Justice of the Mississippi Supreme Court, rendered his decision in the cases of John Garza vs. William A. Ruhr, and Alphonse B. Favre, Jr. vs. C. O. Dufour, on October 22nd, 1946.

These causes were filed by the contestants John A. Garza and Alphonse B. Favre, Jr., following the Democratic Primary Election held in the Town of Waveland on August 3rd, 1946. Mr. Garza contested the nomination of William Ruhr as alderman of the First Ward of the Town of Waveland on the ground that persons ineligible to vote were allowed to cast their ballots in the election, and that the affidavit for the securing of absentee ballots did not conform to the statute. The court held in this case that the contestant Garza should have been declared the nominee by the Democratic Executive Committee, and held that the absentee ballots were voted, and could not be cancelled for the contestant Ruhr.

In the Favre-Dufour case, which contested the nomination of C. O. Dufour for the office of Marshal and Tax Collector, the court upheld the claim of the contestant and declared the absentee ballots, numbering forty to be void, for the same reason as in the Garza case and found for the contestant and dismissed the petition of the contestant, Alphonse B. Favre. The contestant had also contended that numerous illegal voters were allowed to cast their ballots. The Court in ruling on this question held that the contestant had not furnished sufficient evidence to show that the voters charged to be illegal voters were not duly qualified voters of the Town of Waveland.

The court further stated that some minor irregularities had taken place prior to the holding of the election; but that the evidence submitted to the court did not tend to show that anyone was attempting to perpetrate a fraud.

That the managers of election had given every opportunity to the challengers to submit evidence as to the voters challenged and none had been submitted. The trials were held over a period of eight days. The time for appeal has now expired and the rulings of the court in both cases have not been appealed.

Electric Sign Installed At Head of Highway Bridge

Again we make our bow to the Hancock County Chamber of Commerce for its concerted efforts in making it possible to have the electric sign at the approach of the traffic bridge. The sign is a reality now. It was put in place on Friday afternoon of last week at 6:30 p. m. the lights went on. The sign was made by E. M. Brignac and presented to the City of Bay St. Louis and the City has assumed the duty in keeping it lighted. It is a twenty-foot sign with eight inch letters which read Bay St. Louis and it adds much to the town and lights the way to the bridge. This is the work of civic minded, progressive citizens and there should and will be more of this type of advancement.

New Telephone Directory Distributed

A new telephone directory for Bay St. Louis, containing many new and changed listings and other helpful telephone information, has just been distributed.

Approximately 1,100 new directories have been delivered to homes and offices, according to J. C. Dabney, Group Manager for the Southern Bell Telephone Company.

The new directory has a green cover, which makes it easily distinguishable from the old gray-covered telephone book.

Mr. Dabney asks that telephone users refer to the new directory for the desired number. Looking up the number helps avoid the possibility of getting the wrong number, and frequently saves time for the calling party as well as the party who might be called in error. Consulting the directory also helps make the best use of already crowded central office equipment. "Information" should be called only when the desired number is not listed in the directory.

The directory includes the classification section—yellow pages—containing helpful information conveniently arranged as to types of businesses and services.

Because of the continuing paper shortage, only a limited supply of directories could be printed; and Mr. Dabney requests that good care be taken of the new copies. He also suggests that the old directories be turned over to scrap paper collectors with other waste paper.

Rocks Defeated by Jesuit In Sunday's Game

The Rock-A-Chaws were badly crippled for the game and any team that plays the cream of the crop of two states is bound to lose a game now and then.

CAPITOL ACTIVITIES

TRAFFIC DEATHS
Traffic deaths in the first eight months of 1946 as reported by the Public Safety Council of Chicago, increased approximately twelve percent over the corresponding period of 1945. The number of deaths reported in the first eight months of 1945 was 15,880 and in the first eight months of 1946, the number reached 21,290. In Mississippi the increase for this year over last year in eight months is seventy-four percent. Last year the number killed in auto accidents in the first eight months of the year was one hundred and seventy-one and in the corresponding period of this year the number is two hundred and ninety-seven. Every state in the union where full reports have been received show an increase in the number of deaths this year over last year.

REPRESENTATIVE

The special election held in Tunica County several days ago resulted in the election of M. Gerald Burrow as Representative in the Legislature, to succeed the late E. T. Woolfolk whose death occurred several weeks ago. For a number of years, Mr. Woolfolk was chairman of the Appropriation Committee and in that capacity rendered fine service to the state.

Miss Mamie Owen, whose home is in New Albany, but who is now sojourning in Washington, D. C., on the secretarial staff of Congressman Winstead of the fifth district, has been spending a few days in Mississippi. WE NEED THE CHAMBER OF COMMERCE

SHORTLY after the Hancock County Chamber of Commerce was reactivated, we were told by a merchant of the city of Bay St. Louis that we could not expect the business people of the County to support a Chamber of Commerce unless it showed results. He, like many others, expected to see miracles performed. His only thought was that a Chamber of Commerce should bring industry and pay rolls into our midst overnight. This did not happen as fast as he thought it should and he was ready to quit. Of course, we are certain that he was not alone in this opinion. Many others, perhaps felt as he did. We have tried to impress our readers from the time of the reactivation of the Chamber of Commerce, that there was a lot of work ahead of us. That these things would not just happen, and that they would not happen as fast as many of us expected; and that it would take hard work, and a lot of it to bring about these results. That we would perhaps see the results in years to come of the seed that was being sown at the present time.

Every payroll added to our County, regardless of the size is of some help, and during the past year we have been very fortunate in having several small enterprises come into the County. The crowning event of all, and the hope of many of the business people to bring to the County a garment factory has at last been realized. The Bay Garment Company has been organized. Leases have been completed, and in a short time the machinery will be installed, and a sizeable payroll will be added to the County. This was brought about through the efforts of the Chamber of Commerce.

As we travel to or from Bay St. Louis on highway 90 we are greeted with one of the prettiest neon signs with the words "BAY ST. LOUIS" striking the eye. This sign can be seen from a distance of several hundred feet, and it tells the traveller that he is entering or leaving Bay St. Louis. This was made possible through the generosity of an outstanding citizen of Bay St. Louis, Mr. E. M. Brignac, who offered this sign to the Chamber of Commerce, free of charge. Mr. Brignac is a newcomer to Bay St. Louis, having been in our midst only a short time, but with the interest of the community at heart, he has set about to help in its development, and we wish to express to him for the people of Bay St. Louis our thanks and appreciation.

Today we can point with pride to the many things that have been accomplished through the activities of the Chamber of Commerce in the short space of a year, and those who questioned the good or the need of a Chamber of Commerce will probably be convinced that we cannot do without this civic organization.

Without a Chamber of Commerce, these many things that have been brought about in the last year would not have been accomplished. It behooves us to stand behind the Chamber of Commerce, to renew our membership for the coming year, and to stand united with the one thought in mind, to BUILD HANCOCK COUNTY.

GENERAL ELECTIONS

The general election in all the states, except Maine, will be held on Tuesday, November 5th. In that election, next Tuesday, thirty-two members of the U. S. Senate and all Representatives in the House will be elected. In Mississippi one Senator and seven Representatives will be elected to Congress. This state will also elect on that day all circuit and Chancery judges, one Supreme Judge and several county judges. All of the candidates for these positions are Democratic nominees and none have opposition. In several counties special elections will be held on the same day to fill vacancies which have occurred by death or resignation. It is not necessary to have your poll tax receipt at general or special election.

DR. UNDERWOOD COMMENTED

Dr. Felix J. Underwood, Public Health Executive for the state, has received a letter from the International Health Division of the Rockefeller Foundation commending him

for certain work he is doing in Mississippi. The letter points out that more and more the medical profession must concentrate on the matter of preventive medicine. This state has received large benefits from the Rockefeller Foundation and appreciates any suggestion from that source.

AT McCOMB

October 22nd was a big day at McComb, Railroad officials, state and city officials and business men, and a legion of citizens spent the day there. The occasion was the launching of an all-aluminum freight car to be used on the Illinois Central System. It is said to be something out of the ordinary as freight cars go and it may be the pattern for many such cars in the future. The Illinois Central System is one of the great railroad properties of the country and has always been a leader in matters of progress. Representing Governor Bailey was Jeff Davis, who delivered an address of welcome on the part of the state, to the thousand of visitors from other states, and, incidentally, to all who chanced to be there on that great day.

GOVERNOR BAILEY

Governor Thomas L. Bailey who has not been well for some time, went to New Orleans several days ago for a check up by the surgeon who operated on him last summer. He returned to Jackson in two or three days and is resting and taking it easy at the Mansion. He looks after such pressing executive matters as demand his attention. His many friends are hoping he will soon be able to resume his duties at the office in the Capitol.

47th ANNIVERSARY

1899-1946

Another milestone was reached in the building of this bank as it observed its 47th Anniversary in October.

For nearly half a century now Hancock Bank has served the people of the Mississippi Gulf Coast. As a financial institution it has consistently encouraged economy and promoted thrift while cooperating in the development of the Coast's natural resources.

The building of a bank is much like building the fortunes of an individual—it takes time to put strength into an institution. It is elemental that stability follows as a consequence of experience. Character, whether personal or financial, is formed by meeting many situations. This bank has hewed a straight line in keeping with the best banking principles and practice. It has never been careless with your money. It has learned that there is no other way for a bank to gather financial strength and maintain its integrity except to be as conservative as it is constructive.

In the prevailing confusion with reference to prosperity, amid the current fears over the threat of inflation, your bank believes that the wisest course to pursue is to produce and save. Extravagance is a sin

and waste a crime for which one usually imposes his own punishment.

America was built by men and women who were industrious and frugal. The foundation of the nation's great wealth was laid by those who were penny-wise and thrift-conscious. The United States could not have gone forward if its people had not created capital by saving money. The financial power of the community lies in the accumulations of its people in life insurance, securities, real estate, farms, factories and bank savings.

We believe there are no short cuts to permanent prosperity, individually or collectively. We know of no easy road to riches. Labor, sacrifice and economy are the stepping stones that lead to financial independence.

This has been our financial philosophy for forty-seven years, and we do not expect to change it. We will go on urging our people to produce and save and work together, that this community may be prepared to meet reverses, grasp its opportunities and build for the future.

In the culinary department this endeavor culminated recently with the appearance of the Army's streamlined packet of combat "K" rations. Even the most fastidious housewife of Bay St. Louis would be pleased to prepare

a meal for her family, using ingredients, gum, cigarettes, heat tablets, dients from the improved ration, etc. Preparation of the food, is a items to be found in the assortment marked improvement over the old include meat, fruit cocktail, fresh "K" ration, well remembered by bread, jelly, sugar, can opener, chew—many former GIs from Bay St. Louis.

New car production will lag behind demand for some time to come. Your old car may have to do for quite a while—and, in any case, you want to keep it in condition to command the best possible trade-in price. So it will pay you to take care of your car... sensibly... and regularly.

We specialize in making your car look and act younger than its age. Regular inspection by our specially trained mechanics may save you the cost of

QUESTIONS AND ANSWERS

Q. Does the amount of money I make on the job affect the amount of subsistence I receive while attending school under Public Law 346?

A. Yes. While taking a full time course in school, you are entitled to subsistence of \$65 per month if without a dependent or dependents and \$90 per month if you have a dependent or dependents but if you also are employed, the rate of such allowance plus compensation received, shall not exceed \$175 per month if you are without a dependent or dependents or \$200 per month if with dependent or dependents.

Q. I sold by home on which I had a G. I. loan with a VA guarantee of \$1500. Can I get another guaranteed loan to purchase a larger home for myself?

A. Yes, but since you've used up \$1500 of your \$4000 guarantee entitlement, your entitlement on any future real estate loan cannot exceed \$2500.

Q. Does a discharge "under conditions other than dishonorable" mean any kind of discharge except a dishonorable discharge?

A. Yes. An honorable discharge or discharge under honorable conditions qualifies a veteran for benefits under the Servicemen's Readjustment Act (G. I. Bill); a dishonorable discharge disqualifies him, but a discharge that is neither honorable or dishonorable may qualify or disqualify him, depending upon the determination of the "conditions" under which he receives it. Veterans Administration determines all such cases.

Q. What is the National Service Life Insurance Fund?

A. National Service Life Insurance is mutual insurance. All premiums paid on this insurance and all interest earned thereon are deposited and covered into a separate trust fund in the United States Treasury designated as the NSLI fund. The Government derives no profit from its administration and acts in the capacity of trustee of the fund or the sole benefit of the policyholders and their beneficiaries.

The Veterans Administration this week urged veterans who have National Service Life Insurance to designate beneficiaries for their insurance if they have not already done so.

Mississippi, explained that the Insurance Act of 1946 completely changed the situation with respect to beneficiaries. The old provision for an automatic order of succession, in the event no beneficiary was named, is no longer in effect for insurance maturing after July 31, 1946.

Under the new law, Pray said, if the insured is not survived by a designated beneficiary, the insurance proceeds will be paid in a single sum to his estate at his death.

A veteran who does not designate beneficiaries exposes his dependents to the risk of unnecessary expense and delay, Pray pointed out.

October 30 will mark the anniversary of the Cavalry. On that date in 1776, the heralded activities of the horse cavalry in the United States Army had a beginning. On April 4, 1946, almost 100 years from its inception on May 9, 1846, the Cavalry was abolished as a separate arm and merged with the Armed Forces and is now named "Armored Cavalry." Horses were virtually eliminated from the Army except for pack animals and for a small detachment of skilled mounted troops which will train minor units for operation in rough terrain. Many "old-time" cavalrymen in Bay St. Louis felt a lump in their throat as "old dobbin" and the sleek stallion were discharged after a glorious part in the history of the United States Army.

CONCRETE PAVEMENT
for Low-Annual-Cost

The strength and stamina of portland cement concrete pavement enables it to give long years of all-weather service under the heaviest traffic.

For all but the lighter traffic, concrete pavement usually costs less to build than any other pavement of equal load-carrying capacity.

Although the smooth-riding and all-weather safety of concrete generally attracts the heaviest traffic, records show that annual maintenance costs of concrete pavement are generally lower than for other types of paving.

Low first cost, low maintenance expense and long life mean low annual cost—the reason why concrete is the logical pavement for new principal urban highways and streets.

County's Farm Income Shows Large Increase

More than tripling their annual gross income in comparison with 1940, as reported by the U. S. Bureau of Census, Hancock County farm families last year produced crops and livestock of the record value of more than \$1,049,000.

This huge increase in farm revenues has already created heavy demand for general farm improvements and for home remodeling, according to a study released by the Title Council of America. With every industry anticipating greater business in the state than before the war, floor and wall tile manufacturers alone expect their sales here to triple in the next few years.

"Increased sales of industrial products mean in turn a new level of prosperity for every local businessman and worker," said D. P. Forst, chairman of the Council's Residential Construction Committee.

The study shows that many farm improvements were made even during the war. Since 1940, for example, the number of farm homes reporting electric lights here has increased from 169 to 460. Heavy demand for such modernizing as installation of running water, tiling of bathrooms and improving kitchen layouts has already resulted, according to Forst.

Forst also pointed out that farmers in the county today have 60

more tractors than in 1940, according to the Bureau of Census, and that the number of trucks on farms has likewise increased substantially. "These facts not only indicate the importance of the farm market but also make it one which no businessman of manufacturer can afford to overlook," he said.

COTTON GINNED

Cotton ginned to October 8th shows that in Mississippi of the 1946 crop, the number of bales ginned was 361,405. For the same period in 1945, the number was 427,308.

From where I sit... by Joe Marsh

On Playing the Fiddle Badly

A favorite recreation in our town is getting together in one or another's home and making music. There's somebody at the piano; a guitar; a fiddle player; and Molly Birtles even has a harp!

What comes out isn't the best music in the whole world. In fact, a lot of it is downright bad. But nobody even thinks to question or to criticize.

Because the spirit of harmony is there—harmony between folks who like each other's company, who enjoy the simple, homey atmosphere

—with nothing more exciting than old songs, and a glass of moderate beer or cider.

From where I sit, it's a heap more important to be a poor fiddle player, than not to play at all. More important to be a part of the American scene—with its community music, home entertainment, friendly glass of beer—than to hold out for professional perfection. (Besides, I like to play the fiddle—even badly!)

HALLOWE'EN PARTY AT S. J. A.

Each year as the spooks come out of their hiding places the witches ride through the night on their brooms. Many people plan unusual parties hoping to attract some of these eerie mystics. Such a party was given by the young ladies of St. Joseph Academy High School.

A prize was offered to the class whose costumes were the best, this prize was won by the Seniors who represented characters of the Mother Goose Rhymes. The Juniors were pajama girls; Sophomores depicted the East End Kids and the Freshmen were just little girls.

During the evening, contests were held in singing, piano selections, dancing and original skits. As there were a number who were very good, duplicate prizes had to be presented.

Finally the young ladies gathered around a huge bon fire and a plate supper was served, after which dancing was enjoyed until it was time to chase the spooks back into their corners and place the skeletons away for another year.

The candle lighting gave the room a spooky, eerie atmosphere but the buffet supper served proved very substantial and delicious.
